

CONCLUSION

For the reasons stated above and in AT&T's prior comments and reply comments in this docket, the Commission should find that U S West's national directory assistance service is not permitted under § 271 of the Act and that, accordingly, the Commission may not forbear from enforcing the requirements of § 272 as to that service. If the Commission finds that it has the power to forbear from enforcing § 272 as to NDA, it should refuse to do so on the grounds that the § 10 criteria are not satisfied as to that service.

Respectfully submitted,

AT&T CORP.

Getting to U S WEST Directory Assistance Now as Simple as 4-1-1

— *Free Local and National DA Calls for Oregon, Washington, Northern Idaho Customers April 1-7* —

U S WEST (NYSE: USW) telephone customers in Oregon, Washington and Northern Idaho may now simply dial 4-1-1 for either local or national directory assistance and, during an April 1-7 introductory period, all 411 directory assistance calls will be free.

"Our customers in these states have asked for a simpler dialing pattern in order to access directory assistance," said Kristine Fasbinder, local U S WEST project manager. "This change does exactly that, eliminating the need to dial 1+any area code+555-1212, which they have had to dial for years. Now, all customers have to dial is 4-1-1."

During the first week in April, U S WEST customers in Oregon and Washington will not be charged for any calls they make to directory assistance using 4-1-1 – whether they be calls for a local number or a long distance number outside their calling area, anywhere in the country, Peterson said. The change also affects U S WEST customers north of the Salmon River, primarily the Lewiston area, because their DA service is provided out of eastern Washington.

Once the introductory period is over, normal charges will resume. For local directory assistance, the charge in Oregon is 50 cents per call after two free calls each month. In Washington, local DA is 60 cents per call after one free call each month for residential customers. There is no free call allowance for business customers in Washington. In Northern Idaho, local DA is 35 cents per call after one free call each month.

For national directory assistance, regular charges in all U S WEST states are 85 cents per call, compared to 95 cents or more with other providers. With national DA, customers do not have to know the area code of the listing they are requesting and they can ask for up to two numbers per call. National DA was introduced in Oregon, Washington and Idaho in 1997 and is now available in most U S WEST states.

Since its introduction in these three states, national DA has been well-received by customers with nearly 400,000 requests per month. The automated response system gives customers access to more than 120 million national listings. While the automated response system streamlines the front end of each call, operators always come on line to provide the numbers and offer additional assistance, if necessary. Data studies have shown U S WEST's listings to be accurate more than 90 percent of the time – a

performance that ranks well ahead of industry standards.

Customers with questions about U S WEST National Directory Assistance may call 1-800-337-0722.

Similar to area code change situations, customers with their own internal telecommunications equipment may have to reprogram their systems in order to access 4-1-1.

U S WEST Communications Group (NYSE:USW) provides a full range of telecommunications services – including wireline, wireless PCS and data networking – to more than 25 million customers in 14 western and midwestern states. The company is one of two major groups that make up U S WEST, a company in the connections business, helping customers share information, entertainment and communications services in local markets worldwide. U S WEST's other major group, U S WEST MediaOne Group (NYSE: UMG), is involved in domestic and international cable and wireless networks, directory publishing and interactive multimedia services. U S WEST has proposed splitting the two groups into separate public companies sometime after mid-1998, pending shareowner and other approvals.
